# E-LIBANO LIVE

*Welcome to our 4th LibanoLive Endoscopy course!*

It is our great pleasure to invite you to the Libanolive 2021 that will be held on September 3 and 4. Over 2 busy days we will be demonstrating, discussing, and debating all the aspects of clinical endoscopic practice.

The meeting is designed for endoscopists and gastroenterologists but also for fellows as well as for nurses and GI assistants, combining live demonstrations with a direct interaction between the participants, the moderators and the experts performing procedures.

Started in 2018 and held every year on September, this meeting has become established as one of the largest MEA Workshops in its field, gathering around 200-300 participants coming from 15 to 20 different countries worldwide.

Live transmission will be broadcast live from 3 endoscopic suites located at Najdeh Hospital and each procedure will be performed by international expert physicians selected for their outstanding teaching capabilities in collaboration with Lebanese expert physicians. We already thank our international experts who accepted to travel to Lebanon despite the COVID19 pandemic to perform the procedures.

The scientific programme also offers State-of-the-Art lectures and Questions and Answers sessions.

As always we expect the meeting to be informal, challenging and fun!

President of Libano Live 2021
